

# LOUISVILLE POPULATION CENTER TRAINING

## BUILDERS EXCHANGE OF KENTUCKY

2300 MEADOW DRIVE  
LOUISVILLE, KY

**Free Training**

**February 24 - 27, 2014**

**Monday – February 24<sup>th</sup>**

**Overview of the Kentucky OSH Program**

**8:30 - 11:30 a.m.**

This session discusses the obligation to provide a safe and healthy workplace, free from recognized hazards. Topics of discussion include the operations of the Kentucky Occupational Safety and Health Program, including enforcement and voluntary compliance services, and safety and health topics currently being considered for future standards and policies.

**Crane Safety for Construction**

**1:00 - 4:00 p.m.**

This session addresses major changes which took effect on Nov. 8, 2010 and provide a basic overview of 1926, Subpart CC, including mobile cranes, tower cranes and certifications requirements for crane operators. Topics will also include requirements for riggers, electrical hazards, and crane inspections.

**Tuesday – February 25<sup>th</sup>**

**Hazard Communication/Global Harmonization**

**8:30 - 11:30 a.m.**

This session covers the basic requirements of 29 CFR 1910.1200 and the revised provision of the standard as they relate to the Globally Harmonized System of Classification and Labeling of Chemicals (GHS). Attendees will learn about the revised standard, which will include chemical hazard classification, written program requirements, container labeling and other forms of warning, safety data sheets, and associated phase-in dates for the new requirements under GHS.

**Excavation and Trenching Safety**

**1:00 - 4:00 p.m.**

This session considers provisions carried under 1926, Subpart C and Subpart P, related to trenching and excavation safety. The class will review site preparation, opening and working in an excavation, and the requirements for employee protection. Sample Emergency Action Plan and Daily Excavation Checklists are provided. Note: Attendees will not become a “competent person” from only attending this course.

**Wednesday – February 26<sup>th</sup>**

**Injury and Illness Recordkeeping**

**8:00 a.m. - 12:00 p.m.**

This session is for those persons responsible for maintaining the revised injury and illness records. The forms 300, 301, 300A will be covered. The regulations and guidelines for recordkeeping will be discussed, as well as the compliance directive the Kentucky OSH compliance officer will use to evaluate your records. A recordkeeping example workshop will be part of the course, time permitting. (Students will receive an OTI certificate for this class)

**Basic Electrical Safety**

**1:00 - 4:00 p.m.**

This session covers the basic requirements surrounding the approval, installation, and use of electrical equipment and devices. The course is built around OSHA standards found in 1910.303 to .305. Includes a discussion of OSHA and industry standards as they relate to the installation of electrical equipment, commonly cited approval and installation violations, an overview of the equipment approval process, cord marking requirements, and basic hazards found in commonly made electrical wiring issues. Involves group-based and hands-on learning activities, including flexible cord marking designation and determining wiring issues associated with an electrical fault board.

**Thursday – February 27<sup>th</sup>**

**Fall Protection (Construction)**

**8:30 - 11:30 a.m.**

This session covers the elements of 1926.500-503 and associated industry standards. Topics include: requirement to provide a fall protection system, the description and requirements for each fall protection system, and training requirements. Attendees should leave with a basic understanding of KYOSH's requirements for working at heights on commercial construction sites. Note: This course does not cover fall protection requirements for residential construction sites.

**Permit Required Confined Space**

**1:00 - 4:00 p.m.**

This session explains the regulations regarding entry into and working in confined spaces. Topics include confined spaces found in the workplace and the hazards associated with them, the regulatory impact of the 1910.146 standard, developing a written program, training employees, permit systems, rescue, and employee participation.
